New Source Review newspaper advertisements for construction permit applications, February 9, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: February 7, February 8, or February 9, 2006. Public notices are generally published every two weeks. The previous publication of public notices was January 24 - 26, 2006.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Harrison Construction Company</u> with a mailing address of <u>P.O. Box 359</u>, <u>Alcoa, TN 37701</u>. They seek to obtain an air contaminant permit (Division identification number: <u>01-0054-02/58807</u>) for construction of a <u>Concrete Batch Plant</u> at <u>Union Valley Road</u>, <u>Oak Ridge</u>, <u>TN 37830</u>. This proposed operation would consist of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. D. Martin is the assigned Division person.

For the Anderson County "Oak Ridger"--published once on or before Thursday, February 9, 2006.

The applicant is <u>Hawkins Hotmix Products</u> with a mailing address of <u>P.O. Box 292, Wartrace, TN 37183</u>. They seek to obtain an air contaminant permit (Division identification number: <u>02-0109-01/58855</u>) for modification of an <u>Asphalt Plant</u> located on <u>Squire Hall Road, Shelbyville, TN 37160</u>. This existing operation consists of crushed rock and sand stockpiles, a continuous type mixer, and associated equipment used to produce hot-mix asphalt. Number 2 fuel oil is used for fuel. Wet suppression and a baghouse are used for pollution control. The requested modification is for an increase in annual allowable production. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. J. Fuss is the assigned Division person.

For the Bedford County "Shelbyville Times-Gazette"--published once on or before Thursday, February 9, 2006.

The applicant is <u>G.F. Hardwoods</u>, <u>Inc.</u> with a mailing address of <u>3854 Clay County Highway</u>, <u>Moss, TN 38575</u>. They seek to obtain an air contaminant permit (Division identification number: <u>14-0022-07/58863</u>) for construction

of a <u>Woodworking Operation</u> at <u>the same address</u>. This proposed operation would consist of various saws, a sander, side and end matchers, and associated equipment used to manufacture hardwood flooring. A baghouse and cyclone would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Reynolds is the assigned Division person.

For the Clay County "Citizen-Statesman"--published once on or before Thursday, February 9, 2006.

The applicant is <u>Kokomo Grain Company</u> with a mailing address of <u>P. O. Box 745</u>, <u>Kokomo, IN 46903</u>. They seek to obtain an air contaminant permit (Division identification number: <u>16-0155-01/58447</u>) for a <u>Grain Elevator</u> located at <u>Decherd S7</u>, <u>Tullahoma, TN 37388</u>. This existing operation consists of equipment used for loading and unloading of various grains. A baghouse is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. G. Latif is the assigned Division person.

For the Coffee County "Tullahoma News"--published once on or before Thursday, February 9, 2006.

The applicant is <u>The Eggo Company</u> with a mailing address of <u>585 Morrison Road, Rossville, TN 38066</u>. They seek to obtain an air contaminant permit (Division identification number: <u>24-0063-02/58743</u>) for modification of a <u>Waffle Manufacturing Operation</u> located at <u>the same address</u>. This existing operation consists of five flour storage silos, one sugar storage silo, a dry mix station, surge bin system, two wet mixers, three holding tanks, and fourteen waffle iron wheels, each equipped with a vacuum picker. A baghouse is used for pollution control. The requested modification is for the addition of two new waffle iron wheels. There would be physical construction. Ms. G. Latif is the assigned Division person.

For the Fayette County "Fayette Falcon"--published once on or before Thursday, February 9, 2006.

The applicant is <u>Greg's Sawmill</u> with a mailing address of <u>P.O. Box 163, Toone, TN 38381</u>. They seek to obtain an air contaminant permit (Division identification number: <u>35-0076-01/58808</u>) for a <u>Sawmill Operation</u> located at <u>11315 Highway 100, Toone, TN 38381</u>. This existing operation consists of a 325 hp diesel engine, 52-inch saw with chain drag system for handling sawdust, and associated equipment used in sawing hardwood lumber. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Smith is the assigned Division person.

For the Hardeman County "Bolivar Bulletin-Times"--published once on or before Thursday, February 9, 2006.

They seek to obtain an air contaminant permit (Division identification number: 36-0079-01/58840) to modify an Asphalt Plant located on Hwy. 64 East, Savannah, TN 38372. This existing operation consists of a rotary dryer, elevator, hot screens, hot mix bins, asphalt batch mixer, hot mix asphalt storage, truck load-out, aggregate bins, conveyors, aggregate storage piles, and associated equipment used to process and ship asphalt. A cyclone and baghouse are used for control of particulate emissions. The requested modification is to apply the State's new standard procedure for asphalt plants. This would decrease the total air contaminant emissions, however, carbon monoxide would increase due to application of new emissions factors. There would be no physical construction. Regulated air contaminants are emitted from this source. Mr. Robert Benjamin is the assigned Division person.

The applicant is <u>Federal Materials Company</u> with a mailing address of <u>2425 Wayne Sullivan Drive, Paducah, KY 42003</u>. They seek to obtain an air contaminant permit (Division identification number: <u>40-0110-01/58788</u>) for a <u>Concrete Batch Plant</u> located at <u>75 Recycling Drive, Paris, TN 38242</u>. This existing source consists of a cement silo, fly ash silo, and associated equipment used in the production of concrete. Baghouses are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Jim A. Attar is the assigned Division person.

For the Henry County "Paris Post-Intelligencer"--published once on or before Thursday, February 9, 2006.

FIRST APPLICANT

The first applicant is <u>County of Lake</u> with a mailing address of <u>229 Church St.-Courthouse-Box 1, Tiptonville, TN 38079</u>. They seek to obtain an air contaminant permit (Division identification number: <u>48-0034-01/58624</u>) for an <u>Air Curtain Destructor</u> located on <u>Upper Wynnburg Road, Tiptonville, TN 38079</u>. This existing operation consists of equipment used to burn wood, wood waste, and yard waste. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. G. Latif is the assigned Division person.

SECOND APPLICANT

The second applicant is <u>Forcum Lannom, Inc.</u> with a mailing address of <u>P.O. Box 1466, Dyersburg, TN 38025-1466</u>. They seek to obtain an air contaminant permit (Division identification number: <u>48-0035-01/58740</u>) for construction of a <u>Concrete Batch Plant</u> on <u>Church Street, Tiptonville, TN 38079</u>. This proposed operation would consist of gravel, crushed rock and sand stockpiles, cement silo, a mixer, and associated equipment used to produce ready-mix concrete. A fabric filter, hood controls on the process, and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the "Lake County Banner"--published once on or before Thursday, February 9, 2006.

They seek to obtain an air contaminant permit (Division identification number: 69-0017-02/58789) to modify an existing Solvent Blending and Can Filling Operation located at the same address. This operation consists of a series of solvent blending tanks for solvent distribution. The requested modification is the replacement of an existing solvent tank (#19) and the addition of three (3) 8,000 gallon vertical solvent storage tanks. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. There would be an increase in the regulated air contaminants emitted by this source. Mr. W. Medley is the assigned Division person.

For the "Pickett County Press"--published once on or before Thursday, February 9, 2006.

The applicant is <u>Garrott Brothers Continuous Mix, Inc.</u> with a mailing address of <u>P.O. Box 419, Gallatin, TN 37066</u>. They seek to obtain an air contaminant permit (Division identification number: <u>74-0116-01/58756</u>) for construction of a <u>Concrete Batch Plant</u> at <u>8535 Guthrie Road, Cross Plains, TN 37049</u>. This proposed operation would consist of a concrete batch mixer, dry powder cement silo storage, crushed limestone Air Pollution Control feb0906-web.doc

aggregate/sand, and associated equipment used to produce ready mix concrete. A baghouse would be used to control particulate (TSP) emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the "Robertson County Times"--published once on or before Thursday, February 9, 2006.

The applicant is Nashville Marble and Whirlpool Bath Company with a mailing address of 333 Sand Hill Road, LaVergne, TN 37086. They seek to obtain an air contaminant permit (Division identification number: 75-0212-01/58585) for modification of a Molding Operation located at the same address. This existing operation consists of a cultured marble production operation, including resin mixing and clear gel application, and a natural gasfired curing oven, for the manufacture of showers, sinks, tubs, etc. The requested modification is to increase their material usage rates. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. Regulated air contaminants would be emitted by this source. Mr. Younes Aleali is the assigned Division person.

For the Rutherford County "Daily News Journal"--published once on or before Thursday, February 9, 2006.

The applicant is <u>Cumberland City Plastics</u> with a mailing address of <u>468 Industrial Park Drive</u>, <u>Cumberland City</u>, <u>TN 37050</u>. They seek to obtain an air contaminant permit (Division identification number: <u>81-0031-01/58759</u>) for the construction of a <u>Plastic/Polymer Resins Pulverizing Operation</u> at <u>the same address</u>. This proposed operation would consist of a grinding mill, cyclones, and fabric dust collector (baghouse). The cyclones and baghouse would be used to control particulate (TSP) emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Stewart County "Stewart-Houston Times"--published once on or before Thursday, February 9, 2006.

The applicant is <u>Byerley Construction</u> with a mailing address of <u>1929 Brookside Drive</u>, <u>Kingsport</u>, <u>TN 37660</u>. They seek to obtain an air contaminant permit (Division identification number: <u>82-0076-01/58859</u>) for a <u>Concrete Batch Plant</u> located at <u>the same address</u>. This existing operation consists of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse is used for pollution control. The requested modification is to update the permitted emissions. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. D. Martin is the assigned Division person.

For the Sullivan County "Kingsport Times-News"--published once on or before Thursday, February 9, 2006.

The applicant is <u>Infinity Spas</u> with a mailing address of <u>2212 Buffalo Road</u>, <u>Johnson City</u>, <u>TN 37604</u>. They seek to obtain an air contaminant permit (Division identification number: <u>90-0281-01/58827</u>) for a <u>Fiberglass Surface Coating Operation</u> located at <u>the same address</u>. This existing operation consists of equipment used for the manufacture of spas. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. T. Blake is the assigned Division person.

For the Washington County "Johnson City Press"--published once on or before Thursday, February 9, 2006.
